11. ON! The Word of Ordo Nu!

When the asteroid crashed the bastard became a stranger
more alien than the fabulous spermatazoid. No normal myth could
have created a more mutable stigmata. No means of naturalization
has succeeded in neutralizing his illegitimacy. All this is a
fancy way of saying that the bastard got away...

ALIEN ANDROGYNY

Nahud/66

Engender what is foreign to you.
Delight the flesh of your opposition.
Share all if you truly have not to give.
Behold what is constantly revealed! As beasts succumb to their greatness,
Let your strength grow with a lust for infinity.

Your heart is vellum, when shall it know and feast upon the honey
of your quill? You strike with a double edge, but you wound wisely.

THE GNOSIS/NEXUS OF SHAITAN / AIWAZ / LAM

-via Zossian 393

'Recieved' 8/81 by Zossian 393

Shaitan is the Peacock Angel synthesizing the Alien Currents of both the Aeon of Isis (as SET) and that magickal current continuing into the Aeon of Asar (as Shaitan). Aiwarz is the new manifestation of this alien mutative current in the current Aeon of Horus as the aspect LAM will continue this magickal current into the future Aeon of Maat. Since Time is in fact Maya or illusion all these aspects are in fact one mask for the Alien mutative current infusing our planet.

SHAITAN (S) AIWAZ or OVIZ (O) LAM (L) = S.O.L.

SOL is the genetic crystalline seed planted/tended/to-be-harvested by the alien Gnosis/Nexus (ie; DNA). SOL is the solar focus, the Spirit of the Sun Indwelling in Man; 666; the Beast or Baphomet; the NEW human. SOL is the Sun, in Egyptian ATON projected into the future as N'ATON, the Worldsoul, the evolutionary goal, Lam is the priest thereof; LAM = 111 = N'ATON. 'Thy prophet is a fool with his one one one'. SOL = 400 or Tau, the Universe card in the tarot. This is once again a glyph for the GOAL of evolution; 418. It is interesting to note that Shaitan 359 and Aiwarz 359 and Lam as Daath or 11 = 729 or Baphomitr. In dreamtime A frater showed me the Tree of Life and pointed out that Tau was in the Abyss or Daath. In its earliest glyph form Tau is a circle with a cross in it; ☉; the Mark of the Beast.

Shaitan is Source, Aiwarz is transformer, Lam earths in the Abyss.

All the above operates within what I percieve as the Gnosis/Nexus- this is the general operational field of the Alien current where it manifests. The WORD I recieved for this is Nexus as NXS, Nun, Tzaddi, Samech = 200 the Sun, a reflection of SOL. It also explains the mutative process; Death (rebirth) via the Star (Alien Current) towards perfection or ART. SOL = 400 = IMMORTAL.....

Soror Nema recieved a conclusive formula that brings all the above together;
S.O.L. + V (vau; the Aeon of Horus) + e (hé, the Aeon of Maat) + z (zain, nameless Aeon) = SOLVEZ = 418. SOLVÉ is the alchemical formula of dissolution.

'ONE STAR IN SIGHT'

by E.Q.V. / Orpheus

First M - to Be.

Second M - to See.

Third M - to Know.

Fourth M - to Remember.

Fifth M - To Forget.

Earth, Water, Air, Fire and Spirit, the four known and the fifth unknown. Assiah, Briah, Yetzirah, Atziluth, and the Ayn Soph Aur. Thus the four must always resolve itself into the fifth, that being the Dissolution in bliss.

Yea, but the First be as mysterious as the Fifth, for it is wedded to the Second just as the Fifth is wedded to the Fourth, for alone they must remain always indistinguishable the one from the other, for as the wisdom of the ancients has always stressed the Elements form a Trinity, with the World of Matter being merely the illusion of their apperrence. Rajas, Satvas, Tamas...Fire, Air and Water. Spirit and Matter are but two forms of the same thing, one moving the other resting, but the one concealing the dynamic within it's stillness and the other the still-point within it's movement, each containing the other within itself, for within that sacred essence which is the spirit there is concealed a divine substance and within that divine substance which is the Matter-Soul there is hidden the sacred essence, the elixir of the elixirs.

To Be, Malkuth; to See, Yesod; to Know, Tiphareth; to Remember, Kether; to Forget, the Ayn Soph Aur. These be the outposts of the Four Worlds through which the Seven palaces lead, lighting the way to that which lies beyond any palace, any World. For what is the Fifth if not that which must always lie hidden beyond the grasp of those who ignorantly think the Universe can be given unto them, rather than they being that which is given, and received. The First and the Last-Being and Not-Being. Thus it must always be, and not-be.

M equals 40, that being 4 times 10, the Four Worlds and the Ten Sephiroth. Each M thus includes all that is, unto itself in its own manner, the Four Worlds and the Ten Sephiroth being the totality of the Creation, with the Unmanifest Fifth hiding within itself the Creation in its Concealed Form as all that is Not. The Five M's add to 200, that being Resh, the letter of the Sun, the Star of our segment of the Universe. Note that 200 is half of 400, that being the numeration of the Universe itself, 200 necessarily being the Light of the Universe which conceals within itself its own Darkness. M is also Atu XII, and 5 times 12 equals

60 which is Samekh, the gematria of which equals 120, which equals ON. This is a great secret O Silent Ones.

Five M's meaning Five Sacrifices, and yet the Fifth Sacrifice is Not a Sacrifice.

These Five M's are also the cypher of the five vowels: A, O, U, E, and I, which represent Birth, Initiation, Union, Peace, and Death. Seek not only the realization of the peace of remembrance, o wanderers upon the path, but seek to actualize thyself in that Death of Forgetfulness which is the concealment of thy reborn Life, for it is Life, itself, which is the Great Unknown. Every True Action is a Death of Forgetfulness, a Dissolution in Bliss, for the Way to Life leads through the portal of Death.

Crack the stone - the atavism erupts from Sparian strata. A dormant genius once forgotten in the books of its dead finds a newer race of stars to Awaken. Unlock the forgotten imprints of what was past! We the celebrants of Zos are the supersensualists of Kia. Our dreams, our lust mate with the accomplished remembrances of Tomorrow.

Ritual

Shimer/555

Swift moving currents sweep through my body
Tingle and mingle with my senses
Incense permeates the air that surrounds the temple
Truth has no dividing boundaries
Ipsos by the same lips that kiss death and hold
Time still for Aeons at a time

Sunsets color hazy rose
Colors spread thin
Illusion sets in
Stars twinkle and laugh, small things begin to move and crawl
I wait and listen for a sign of some kind from somewhere
maybe here -

Buzzing sounds
Flame moves slowly
Understanding all and no-thing.

Soft silhouettes
Beyond peacock feather eyes
Move slowly

Stored energy released in carefully focused
Spasms of delight
Breathtaking

Blue and veiled purple

Always looking beyond
Feeling the Universe
Life, Growth, Blood,
Starlight, Music tickling

You and I.
