N.3

The science-Art of the future is Magick  
We are a new breed of scientist-artists.  
We have returned, clothed in flesh, as Horus  
the Hawk-headed warrior Lord.  
We are here to replace the "Old Order".  
We are the vanguard  
We shall encircle the globe with Stars!  
For this is our Great Work;  
The Work of the Wand  
The Work of the Cup  
The Work of the Sword  
The Work of the Earth  
And the Work of Truth to bind them.  
The first shall be of Calling Forth and Sending  
The second shall be of the Beast and his Bride  
The third is of Will  
The forth is of Creation; Love  
The fifth is our Temple.  
All blooms before our coming  
Join us in the Dance  
Or be left  
Amidst the  
Ashes...  
93.
